

Experience

Software Engineering Senior Associate**Dedalus****Jun 2023 – Apr 2026**

- Led Angular version upgrade from v12 to v21.
- Built UI and server caching with backend coordination, reducing load time from 4 s to 300 ms.
- Introduced API compression to reduce response size and optimize download performance.
- Provided Angular mentorship to 8 team members and led a team of 12 developers, taking full ownership of two sprint cycles.

Software Engineer**Boodskap Labs****Aug 2021 – May 2023**

- Migrated application data layer from Elasticsearch to SQL, reducing query complexity.
- Integrated NPM libraries (Monaco Editor, Monaco Tree, angular-split) to build IDE-like interfaces, improving developer productivity and significantly enhancing user interaction and navigation.
- Developed shared components and services using RxJS, demonstrating problem-solving and focus on code efficiency and maintainability.
- Built 20+ reusable, responsive Angular UI components, reducing feature development time by 40%.

Front end developer**Mirror Technologies****Jul 2020 – Aug 2021**

- Translated client requirements into clear, user-friendly UI designs, reducing rework and iterations.
- Led end-to-end website development, managing design, client communication, and final delivery.

Projects

- **Laboratory Information Management System** Specialized laboratory software that automates workflows, tracks samples, and ensures data accuracy, enhancing efficiency, compliance, and data integrity.

Technologies Used: Angular v21, Typescript, Angular material, Bootstrap v5, C#, SQL

- **DTA – HIP** An American government program in Massachusetts promoting healthy food purchases with incentive tracking.

Technologies Used: Angular, Typescript, Bootstrap v3, Node.Js

Skills

- Frontend: Angular - v21, React – v18, Typescript, Angular material – v21, Javascript, Bootstrap -v5, SCSS, HTML
- Backend: C#, Node.Js
- Database: SQL, MongoDB, Elasticsearch
- Mobile Framework: Ionic, Flutter

Awards

- **Achieve Excellence Together** - Received the award three times for outstanding performance, dedication and exceptional contribution to the team
- Solved 100+ Data Structures and Algorithms (DSA) problems on [LeetCode](https://leetcode.com), demonstrating problem-solving

Education

2016 - 2020

Completed a Bachelor of Engineering in Electronics and Communication Engineering from Chennai Institute of Technology with a CGPA of 7.
